

Walsden St Peter's CE Primary School

GOOGLE SUITE FOR EDUCATION (GSFE)

Parental consent form

At Walsden St Peter's CE School we use G Suite for Education (GSfE), and we are seeking your permission to allow your child to access a class account for GSfE and eventually an individual account for GSfE. G Suite for Education is a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. At Walsden St Peter's CE Primary School students will use their class G Suite accounts to complete work and communicate with their teachers.

Initially we will start introducing GSfE as a class login however, over this year we aim to create individual accounts and logins for each pupil at Walsden St Peter's CE Primary school.

This system is available in school, from home and from any other computer with internet access. It is also available on other devices, such as smartphones, iPads, etc.

The only parts of this system available to pupils are:

- [Google Classroom](#)
- [Google Drive](#)
- [Google Docs](#)
- [Google Slides](#)
- [Google Sheets](#)

Children are only able to use email within [*@walsdenschool.com*](mailto:@walsdenschool.com) - in other words, between their fellow pupils and staff. They cannot send email outside [*@walsdenschool.com*](mailto:@walsdenschool.com) or receive email from outside [*@walsdenschool.com*](mailto:@walsdenschool.com)

The only exception to this is if we are working on a project with another school and we allow pupils to email other pupils in that school, or share documents.

The only personal information which we provide to Google to run this service are names. Your child's **class** logon ID will be derived of their year group and the domain name:

- Year group: Year 2
- Class username: Y2@walsdenschool.com

Your child's individual logon ID will be derived from their first letter of their first name and surname:

- **Child's name:** John Bold
- **Child's username:** jbold@walsdenschool.com

No personal information whatsoever, such as dates of birth, gender, addresses is provided or linked to names.

A lot of the privacy concerns which apply to the "public" Google do not apply to G-Suite for Education:

- Google does not enable profiles, or web history or provide its social Google+ web pages on our system.
- Google does not place advertising on pages in Google Apps for Education.

For further information regarding GSfE compliance with the latest data protection act [click here](#).

The school can access all the data stored in your child's account and suspend or delete an account at any time.

We ask for your permission to create an email account for your child when they join the school, but you can withdraw this permission at any time and we will delete your child's account. However, this will mean that there will be important parts of the ICT curriculum that your child cannot access.

We also ask permission for your child to use Google Meet in the event that your child's class is asked to self-isolate. Please see attached school protocols for Google Meet.

Thank you,
Esther Logue & Emma Crowther

I give permission for Walsden St Peter's CE School to create/maintain a G Suite for Education account for my child.

Full name of student

Printed name of parent/guardian

_____ _____

Signature of parent/guardian Date

In the event that their class is asked to self-isolate, I give permission for my child to use Google Meet and agree to ensure we abide by the school protocols for Google Meet.

Full name of student
