

## Things to remember!

PE is on Thursdays and swimming is on Tuesdays. Please remember to take out any earrings on these days.

Learning log tasks will be sent home every 2 weeks.

Spellings will go home on Monday to be learned by the following Friday. The children will be given a spelling book with a list of spellings to learn.

Daily home reading. Once your child has finished their school reading book please ask them questions about it. All reading done with an adult needs to be recorded in the reading record.

## English

In English this term we will be looking at Greek myths. This will include:

- Narrative
- Newspaper reports
- Grammar
- Descriptive writing
- Weekly spellings
- Guided reading

We will be planning and writing our own quest myths using key features of characterisation and story structure.

We will be doing a lot of Talk4writing, looking closely at the structure of stories and continuing to use exciting vocabulary to engage our readers.

## Mathematics

In Mathematics we will be looking at developing the children's understanding of fractions. The children will recognise and show fractions using diagrams, equivalent fractions with small denominators.

We also will be looking at time, using an analogue clock, estimating and reading the time to the nearest minute and comparing the duration of events.

We will be learning how to recognise and identify angles. Draw and describe 2D shapes and make 3D shapes using modelling materials.

Including this, we will look at measurement mass and capacity. They will explore and investigate using a variety of scales and look at capacity and volume of liquid. We will also measure, compare, add and subtract capacities.

### **Science - Light and Shadow**

Linking our work on weather in Greece we will investigate the sun and how shadows are made.

Investigate how the length of shadows changes over the course of the day.

### **Computing**

We will use the internet to find information on Ancient Greece and create and present Power Point presentations.

### **Music**

Listen to Greek music and perform some Greek dancing.

### **D & T**

Using clay we will design Greek pots, make Greek wreaths and create Ancient Greek temples.

## **Ancient Greece**

### **Art**

We will be looking at the Greek artist Spyros Papaloukas and creating pictures using pastels in the style of Spyros Papaloukas.

### **Geography**

Compare the climate in Greece and England. Compare annual rainfall and create graphs of Athens and London. Plot countries and cities on maps of England and Greece.

### **History**

Research everyday lives of people in Ancient Greek times. We will be holding an Ancient Greek day during the start of the second half term. A letter will follow.
